

# Stream for Cats: Lifeline

**Love should be safe, including the love of our cats.**

The Cats Protection specialist cat-fostering service, Lifeline, provides a temporary loving home for cats whose families are fleeing domestic abuse.

January and February are the busiest times of year and highest demand for our Lifeline services, which is why we are making this appeal for support.

Our campaign aims to **raise £48,928** which will **cover the running costs of Lifeline over two months.**
