

Stream for Cats: Lifeline

Love should be safe, including the love of our cats.

The Cats Protection specialist cat-fostering service, Lifeline, provides a temporary loving home for cats whose families are fleeing domestic abuse.

January and February are the busiest times of year and highest demand for our Lifeline services, which is why we are making this appeal for support.

Your donations:

- increase the support available to cat owners experiencing domestic abuse across the UK
- provide essential food and supplies benefitting cats already in our foster care
- support more foster carers to open their homes and hearts to cats escaping domestic abuse
